

GEZANI INITIATIVES

Ward 13, Chiredzi South | Together for Today and Tomorrow

MCDT RESPONSIBLE MINING FRAMEWORK

As Ward 13 is rich in natural resources, all mining operations must adhere to the strict guidelines established by the Malipati Community Development Trust (MCDT).

Core Principles

- Environmental Protection:** Zero-tolerance for chemical runoff into local water sources. Mandatory land reclamation post-extraction.
- Community Employment:** A minimum of 60% of the unskilled workforce must be sourced locally from Gezani.
- Social Investment:** Mining entities are required to contribute to the Gezani Education Scholarship Fund.

Failure to adhere to these guidelines will result in the immediate revocation of community consent for operations.
